DETAILED ACTION

Ex Parte Quayle

This application is in condition for allowance except for the following formal matters:

Claim Objections

1. Claims 17-20 and 24 are objected to because of the following informalities:

With respect to claim 17, in lines 1-2, replace "An article comprising a medium storing instructions that enable a processor-based system to" with --An article comprising computer readable medium encoded with computer executable instructions that enabling a processor-based system to--.

With respect to claim 18, in lines 1-2, replace "The article of claim 17 further storing instructions that enable the processor-based system" with --The article of claim 17 wherein the computer readable medium further encoded with computer executable instructions that enabling the processor-based system--.

With respect to claim 19, in lines 1-2, replace "The article of claim 17 further storing instructions that enable said system" with --The article of claim 17 wherein the computer readable medium further encoded with computer executable instructions that enabling said system--.

With respect to claim 20, in lines 1-2, replace "The article of claim 17 further storing instructions" with --The article of claim 17 wherein the computer readable medium further encoded with computer executable instructions that enabling said system--.

Art Unit: 2616

With respect to claim 24, in line 1, replace "The system of claim 12 including an add-in card coupled to said system" with --The system of claim 12 wherein the add-in card coupled to said system--.

Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-4, 6, and 12 are allowed. Claims 17 through 20 contain the allowable subject matter but are objected for minor informalities. Claim 24 depends on claim 12, it is also allowed. However, claim 24 is objected for minor informalities.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach or fairly suggest writing information into the configuration spaces of the integrated component and add-in card if the identifiers match, as specified in independent claims 1, 12, and 17.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
